## 2022 BCCA Orchard Monitoring Programs for China, Japan, European Union, and UK Exports

### —PAYMENT FORM—

Growers please fill out page 2 and send it to the BCCA, **along with** a duplicate copy of the CFIA Compliance Agreement entitled: “2022 Export Programs of Fresh British Columbia Cherries to Thailand, People’s Republic of China, Japan, European Union and United Kingdom; 2022 **Grower** Compliance Agreement & Registration Application Form”

**2022 Export Program Costs:** The program cost consists of a Registration Fee and a cost per trap.

Export Country	REGISTRATION COST		COST PER TRAP (Includes lures/liners)
	BC Tree Fruits and BC Cherry Association Members	Independent Growers - Non BCCA Members	
China	\$100	\$500	\$4.25
Japan	\$100	\$500	\$70
EU and/or UK	\$50	\$250	\$35

*Please note that while PRC traps are changed every other week, traps for the Japan and EU/UK programs remain in the orchard for the entire season, and only the bottom liners are changed. When you buy one trap, it comes with all the necessary liners for the full season, hence the higher cost. In addition, significantly fewer traps are required to be placed in orchards for Japan and EU export. Please see page 3 for details on trap requirements.*
