

2024 BCCA Orchard Monitoring Programs for China, Japan, European Union, United Kingdom, and Korea Exports

-PAYMENT FORM-

Growers, please fill out page 2 and 3 and send it to the BC Cherry Association (BCCA). Do NOT send this form to the CFIA.

2024 Export Program Costs: The program cost consists of a registration fee and a cost per trap.

		Registration Fees					
Export Country	Pest	BCCA Members and growers	Not a BCCA Members (BCCA				
		exporting with BC Tree Fruits	Non-member)				
China*	Cherry Fruit Fly	<mark>\$0*</mark>	<mark>\$400*</mark>				
Japan	Codling Moth	\$100	\$500				
EU & UK	Cherry Fruitworm	\$50	\$250				
Korea	Cherry Fruit Fly, Codling Moth, Cherry Fruitworm, and Oblique-banded Leafroller	\$75	\$375				

Export Country	Pest	Cost per Trap (Includes lures/liners)
China & Korea	Cherry Fruit Fly (CFF)	<mark>\$1.50*</mark>
Japan & Korea	Codling Moth (CM)	\$80
EU & UK & Korea	Cherry Fruitworm (CFW)	\$40
Korea	Oblique-banded Leafroller (OBLR)	\$45

Please note that while CFF traps are changed every other week, traps for CM/CFW/OBLR remain in the orchard for the entire season, and only the bottom liners are changed. When you buy one trap, it comes with all the necessary liners for the full season, hence the higher cost. In addition, significantly fewer traps are required to be placed in orchards for CM/CFW/OBLR. Please see page 4 for details on trap requirements.

*In order to remain on the 2024 China approved grower list, growers may wish to register for this program regardless of winter damage to their crop. For 2024, the BCCA proposes to heavily subsidize the cost of this program, dipping into reserves to help growers hit by the recent deep freeze event. Growers will still be responsible for all aspects of this program as outlined in CFIA documents.

Payment:

Please provide a credit card number or certified cheque by the March 11th deadline. Unfortunately, our banking set-up will not allow us to accept e-transfers. We apologize for any inconvenience.
